Dear Doctor / Pharmacist

Subject:- **ISORDIL** isosorbide dinitrate **20 mg tablets** blister & bottle packs
AUST R 40246 & 40247

Sigma Pharmaceutical P/L wishes to advise that ISORDIL 20 mg tablets are to be **discontinued** for commercial reasons and will be deleted from the PBS book from 1st December 2005.

Our estimate is that there is approximately 3 months' stock in the national wholesale distribution chain. The **Isordil 5 mg & 10 mg tablets will continue to be supplied by Sigma**. Steps are being taken to increase stock levels of Isordil 10 mg tablets.

We trust the above information will help you to advise your patients and thank you for your co-operation in this matter.

Kind Regards

Ovais Siddiqui, M.Pharm, Ph.D.
Regulatory & Medical Affairs Manager
