

Infected Symposium

Poke-biotic Go! – How to Play

1. Find some antibiotics. They are everywhere! Don't get too greedy, leave some for the other attendees.
2. Once you've found some antibiotics, use your breaktime to find and battle some bacteria/bugs. Bacteria look a lot like SHPA staff, but they have a picture of a bug on their front/back.
3. Time to battle! Use the most appropriate antibiotic to defeat the bug. Extra points for using the ideal antibiotic and being SUPER EFFECTIVE!
4. You can only battle the same bug once each break. Be strategic – between morning tea and lunch the bugs will get more resistant!
5. Watch out - bugs can develop resistance over time! You can find a "susceptibility" token to test bug's sensitivity.
6. The attendee with the most points wins!

Be sure to pick up your instruction flyer/score card from the welcome desk!
