

Dear Healthcare Professional

We wish to inform you that Bristol-Myers Squibb has made the decision to discontinue Monoplus 10mg (fosinopril 10mg and hydrochlorothiazide 12.5mg), Monoplus 20mg (fosinopril 20mg and hydrochlorothiazide 12.5mg) and Monopril 20mg (fosinopril 20mg) tablets in Australia. This decision is unrelated to the safety or efficacy of Monoplus 10mg and 20mg, and Monopril 20mg.

Bristol-Myers Squibb took this decision after ascertaining that generic and/or therapeutic alternatives are available in Australia.

We anticipate that supplies of Monoplus 10mg will be depleted by September 2016, and Monoplus 20mg and Monopril 20mg will be depleted by October 2016. There will be no further supply.

For your reference, the product details are as follows:

Product Name	Active Ingredients	ARTG number
MONOPLUS 10/12.5	fosinopril 10mg and hydrochlorothiazide 12.5mg	68968
MONOPLUS 20/12.5	fosinopril 20mg and hydrochlorothiazide 12.5mg	68970
MONOPRIL 20	fosinopril 20mg	46752
