

# STRATEGIC PLAN 2016 - 2018

---

## 1 VISION

Excellence in Medicines Management

## 2 PURPOSE

Deliver value through people, systems and processes for the best patient outcomes

## 3 VALUES

**PROGRESSIVE:** We are progressive, innovative advocates for clinical excellence and quality medicines management

**PASSIONATE:** We are passionate, open and transparent, and build relationships based on respect, both within our team and with our stakeholders

**PATIENT-CENTRED:** We are patient-centred, driven by a commitment to evidence-based practice to achieve best patient outcomes

## 4 MEMBER STATEMENT

We exist to promote and protect the well-being of all members. To achieve this objective we will actively increase understanding by governments and the wider community of the range, complexity and value of the work of our members. We will keep our members informed of the advocacy and representation undertaken on their behalf.

We will monitor the dynamics of the marketplace and we will design and implement skills development programs, training and peer support to protect and enhance the careers of our members. Where appropriate, we will form partnerships with other organisations and we will create opportunities for our members to design and implement our programs and projects.

To guarantee the ongoing value of SHPA to members, we will develop effective, transparent business processes that support better management of the Society and enhance the quality of our work. We will create value propositions to support a continual growth in membership.
